

Witchcraft has been largely overlooked

in today's Modern World. Overlooked, discarded and abandoned in favor of the seeming efficiencies of technology and logical thought. This is especially true in the world of business. Companies that once secretly or openly resorted to the use of a tax deductible malicious service have gradually changed tactics and now almost wholly rely on what may be called good luck. The profession of Witchcraft has to assume much of the blame for this. It refused to move with the times; insisting on retaining its frankly rather nasty and smelly uniform; employing only the ugliest candidates for its top positions, and ignoring all the basics of customer service and support.

Dunsinane Associates is the first Dark Arts company to become fully integrated into modern business. Recognizing that in the moral sense nothing has changed in the business community led to the conclusion that a high quality and responsive malicious service with an understanding of 21st century business systems would be a very desirable commodity.

Taking on *Dunsinane Associates* as your dark partner will almost immediately set your company on a different plane on the road to success.
